

We are pleased to announce that HEPTSA approved a grant request for **Type to Learn 4**, which is now available for your students to use at home. Your student has taken a pre-test, which has leveled them according to accuracy and words per minute. They now have the ability to work on Type to Learn 4 at school or at home. In order for you to run Type to Learn 4 on your computer at home, you will need to install the client. Please see steps below.

To install the client:

Go to:

<http://ttl4.sunburst.com/downloads/#FullVersions>

Both MAC and Windows users will need our school code: **126437**

Username: last name + first 3 letters of first name ex. smithjoh

Password: 123456
